TN 2017 VAG 06 fuel refill hose

Application to:

- VAG cars with Sequential gear box
- VAG cars with DSG gear box

TN_VAG_06_17_fuel_refill_hose

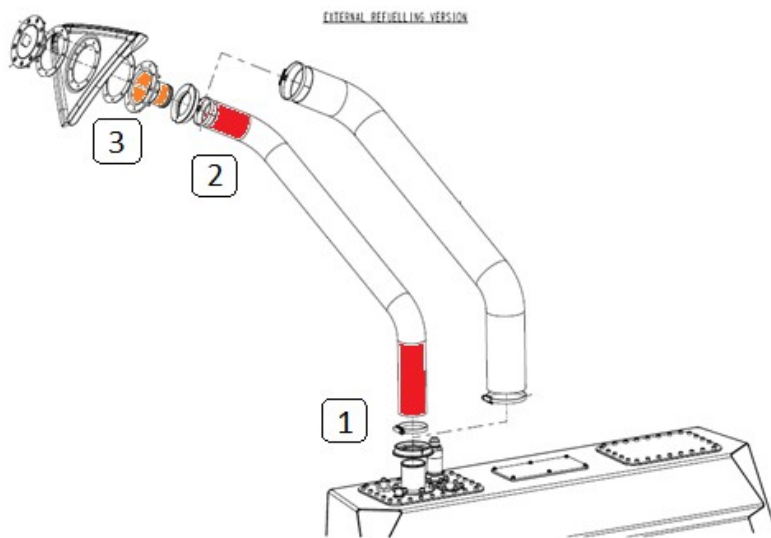

Advisement

Dear customers:

We advise about the correct installation of the external refill hose on cars using external refueling.

The refill hose has two rubber layers. Be careful assembling the hose into the filler manifolds, assuring the inner layer doesn't retract.

It is recommended to fix firstly the hose on the tank filler neck (1), secondly to assemble the manifold into the hose (2) and finally bolt the manifold to the window plate (3).

View of the two layers
